Posting API Documentation

It allows us to do basic functions for posting including creating, deleting, and getting posts.

HTTP Method	URI	Action
POST	http://localhost:5000/todo/api/v1.0/posts	Create a new post
DELETE	http://localhost:5000/todo/api/v1.0/posts/[post_id]	Delete an existing post
GET	http://localhost:5000/todo/api/v1.0/posts/[post_id]	Retrieve an existing post
GET	http://localhost:5000/todo/api/v1.0/posts/recent/[community]/[n]	List the n most recent posts to a particular community
GET	http://localhost:5000/todo/api/v1.0/posts/recent/[n]	List the n most recent posts to any community

User Account API Documentation

It allows us to do basic functions for user account including creating user, updating email, incrementing or decrementing karma, and deactivating account.

HTTP Method	URI	Action
POST	http://localhost:5100/todo/api/v1.0/users	Create user
PUT	http://localhost:5100/todo/api/v1.0/users	Update email
PUT	http://localhost:5100/todo/api/v1.0/users/inckarma	Increment Karma
PUT	http://localhost:5100/todo/api/v1.0/users/deckarma	Decrement Karma
PUT	http://localhost:5100/todo/api/v1.0/users/deactivate	Deactivate account
